## **Summer Works and Building Update**

*Hello, well we are fast approaching the summer holidays and I guess everyone is looking forward to the summer break. Just thought I'd let you know how the works are progressing.*

*During the summer period we'll be busy forming new car parking bays and installing new fencing, along with the upgrading of the existing gas and electrical supplies. Also we'll be installing new boilers in the plant-room, so those winter days should be less chilly and as part of the summer works new flooring will be installed in the main hall.*

*New temporary classroom facilities will be installed during the summer holidays, these works will be carried out by our specialist contractor Portakabin and will be fully operational and ready for the autumn term.*

*As you know we have incurred some difficulties associated with the existing ground conditions to the new extension and at present we are reviewing the revised strategies in order to progress the works. Please be assured that everyone associated with the project are working tirelessly to resolve the issue.*

*Interclass Plc would like to take this opportunity to wish everyone a happy and enjoyable summer break and long sunny days (hopefully)*
