

## ***Blossom Field Infants school Building Update***

*Hello, hope everyone enjoyed their summer break, as you can imagine we have been extremely busy on site. We've installed new temporary class rooms, upgraded the gas and electric mains coming into the school, also extended the car park, which will provide the school with new car parking bays and as you probably noticed that we have installed new fence to car park area.*

*We have undertaken the installation of new floor covering in the main hall and some decoration work in this area. We are continuing our works to the existing heating system, which are progressing well and should be completed shortly.*

*As you are aware we have experienced difficulties with the foundations of the new extension, however, I am delighted to say we have now finally resolved the issues and we can move forward in a positive and proactive manner.*

*Interclass Plc would like to take this opportunity to thank the school and Solihull council for their help and assistance in resolving these difficulties.*

*We will update you again in a couple of weeks time.*
